

Estrella Apparatus

Since more than 50 years we are recognised as the world leader for glass-lined piping material and parts with smallest radii.

Today we would like to draw your attention to our competences in manufacturing glass-lined vessels, columns, etc.

- All steelwork is performed in-house by Estrella in Ettingen, Switzerland
- All raw materials are certified to be 100% European origin
- We are certified for the fabrication of pressure vessels by leading international authorities; including ASME U-Stamp, HP-0, SWISS-TS, DESP, China Stamp and Korean Licence
- All columns are glass-lined vertically and are therefore available in half DIN tolerances without any extra costs
- Our range of glass-lined accessories includes agitators, baffles, thermowells, dip pipes, connection covers, manhole covers, Manhole protection rings, Support rings, Filter plates, Sight glasses, and much more

- The size of our furnace allows us to glass-line vessels up to 25m³ and columns till 79 inches in diameter with a length of 177 inches.

- Special designs on customer requests are welcome
- We reglass all items of these dimensions fast

Our experts are at your disposal to

- **avoid any glass damages during assembly**
- **inspect glass damages (fast and producer-independent)**
- **eliminate reasons for failures of equipment**

Do not hesitate and send us your enquiry!
